

## COMFORT KUKACARD®

### EASY PRINTING CUSTOMER CARD

Easy printing of Store cards and letters.

Antrow software has in collaboration with Keil-IT a software a program developed that allows you to print store cards, discount cards and mailing letters to your customers in an easy and time-saving way. Our software imports the customer data directly from your application, then the user can select the customers individual or all then print, the information letters, cards, address stickers all in one go. The software also has a simple function to individual reprint store cards, discount card in case that a customer loses or damage his card. Our software comes with Word templates so you can start immediately.

With the build-in interface for Hiltes® POS systems you can directly import Hiltes® customer data in your application. The software is optimized for ZEBRA™ printers, other brands can be supported on request.

Importing customer addresses
